

GLOW IN COLOUR

Instructions For Getting Your Client Set Up With Their Glow In Colour Swatch App

1. Ask your client to share their screen
2. Ask them to go to a new browser window and type in www.glowincolour.club
3. Click on "Glow In Colour Swatches and Resources".
4. Click on the relevant season, either on the image or on the \$15 button.
5. Ask them to fill in their details, but not to put in any payment information. Also ask them to note their password as they will need it for the next step.
6. Give them a coupon code and ask them to put it in under the "have a coupon" button.
7. They will then be redirected back to the hub page. They can then click "Access Now" under their relevant season.
8. Show them around inside the page, and in particular direct them to the "Quick Resource Links" on the right hand side, where they will find various PDF's about their new colours which they can download and keep for reference.
9. Then ask them to go to their phone and open a new browser window.
10. Ask them to type in www.glowincolour.club, then click "Colour Swatch Hub"
11. When the Colour Swatch Hub page has loaded, ask them to go to the top menu and click login, then click "colours...." and whichever season you have given them
12. They will need to login using the username and password they have just set up.
13. They will then have their colour swatch open on their phone. You can talk them through their colours again at this stage if you would like to.
14. To add the webpage to their phone as an app, for iphone users click the square with the up arrow at the bottom of the screen and scroll down to "Add to homescreen". Their colour swatch will then be on their phone as an app for them to return to whenever they wish to refer to it.
15. For Android users, go to the three dots at the top right of their screen, and click "Add to homescreen". Their colour swatch will then be on their phone as an app for them to refer to whenever they wish.
16. In future when they want to see their colours, they can click the icon on their homescreen, login as usual and then click the login tab on the top menu for whichever season they are. The page of colours will then load.
